

Know before you go.

خلك عارف قبل لا تروح

The live restaurant platform for Kuwait. Guests see who's open, who's busy, and who has space – right now. We're inviting a first group of founding partners.

Your tables are ready. Your guests just don't know.

Every night in Kuwait, people circle the same questions before they leave the house — is it busy? is it full? will we even get a table? So they guess. Some drive over and turn around at the door. Some pick somewhere else entirely. Meanwhile your quiet hours stay quiet, and your busy hours pile up into a crowd waiting inside.

The problem was never your food, your service, or your space. It's that no one can see inside before they arrive — so the decision gets made without you.

Cue closes that gap — in **one tap.**

One tap tells the whole city you're ready for them.

Cue is a discovery and reservation app built around something restaurants never had before — **live status**. Guests open Cue and instantly see which places are open for them right now. They book, they join the waitlist, and they arrive knowing exactly what to expect.

● Available	Walk right in — plenty of space.
● Busy	Filling up — better to book ahead.
● Full	At capacity — join the live waitlist.
● Closed	See hours and plan the next visit.

Guests stop guessing. You stop losing them at the door.

Everything works in your favour.

01

Fill your quiet hours

Signal that you have space and reach nearby guests deciding where to go. Turn slow nights into covers.

02

Control your door

Set your status in one tap. No crowding, no confusion, no awkward turn-aways at the entrance.

03

Cut no-shows

Confirmed reservations and a live waitlist mean fewer booked tables sitting empty all night.

04

Get discovered

Appear in front of people the exact moment they're choosing where to eat nearby.

05

Own your brand

Your photos, your identity, presented cleanly — no clutter and no competitor ads on your page.

06

Know your demand

See when guests want you most and plan staff and stock around real patterns, not guesswork.

Run the door from your phone.

The tools that keep a busy service calm — and a slow one full.

Live status

One tap moves you between Available, Busy, and Full — and every guest on Cue sees the change instantly, so people only arrive when you're ready. Closed is set for you automatically by your opening hours.

Digital waitlist

When you're full, guests join a live queue with real position numbers and get a notification when it's their turn. No clipboard, no crowd standing inside your entrance.

Reservations

Take bookings that actually show up. Automatic reminders and easy confirmations quietly cut the no-shows that cost you covers.

Less chaos at the front. More covers at the tables.

Be the answer to "where should we eat?"

Cue doesn't just help the guests you already have — it brings you new ones.

Discovery

Guests browse by area, mood, and who's open right now. When someone nearby is hungry and undecided, you're right there in the answer.

A page you're proud of

Editorial-quality presentation of your space, your menu highlights, and your hours — clean, premium, and unmistakably yours.

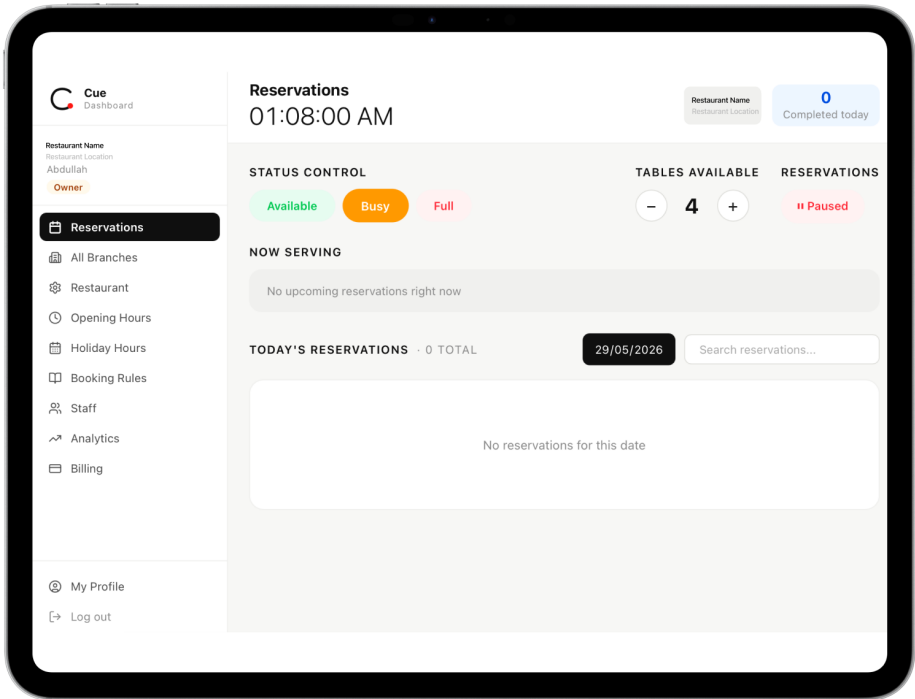

Demand insights

A simple dashboard shows your busiest windows, reservation trends, and waitlist demand, so you staff and stock around what really happens.

Get found by the people already looking for you.

One tap here. The whole city knows.

The real Cue dashboard. Set your live status, run reservations and the waitlist, and adjust tables as the room fills – the moment you tap, every guest browsing Cue in Kuwait sees it.

● Live status, city-wide CORE Set Available, Busy, or Full – every guest browsing Cue sees it the instant you tap. This is the heart of Cue.	● Tables available A live count of open tables you adjust with a tap as guests are seated.	● Reservations & waitlist Take bookings and call the queue from “Now Serving,” all in one view.
● Pause when you need to Not taking bookings right now? Pause reservations and the waitlist in one tap, and resume whenever you're ready.	● Closed runs itself Opening and holiday hours flip you to Closed automatically – you never set it by hand.	● Branches, staff & analytics Every branch, your team, and your busy-hour insights in one dashboard.

The status is the product – and it goes live the instant you tap.

Fair by design. Built here. Yours to control.

● **Free for your guests – no commission, ever.**

Cue never charges diners and never takes a cut of the bill. What guests spend with you stays with you, in full.

● **One flat price you always know.**

No per-cover fees, no hidden charges, no paying more to be seen. Your subscription is your subscription.

● **You stay in control.**

Your brand, your status, your door – you set all of it. Cue amplifies your restaurant; it never speaks over it.

● **Built in Kuwait, for Kuwait.**

A local team that understands your Thursday night, your Ramadan, your regulars – and answers in your dialect.

● **Zero risk to try.**

Start with a full month free – no card, no lock-in. Stay because it works, cancel any time, and keep your data.

● **Being early is the advantage.**

Founding partners lock in today's rate for good and help shape the features every restaurant will use next.

Join the first restaurants putting Kuwait's dining scene on the map – **live.**

● PARTNER PRICING

One month free. Then less than 2 KWD a day.

● 1 month free

Full access • no card • cancel anytime

2 months free

or 45 KWD / month **FOUNDING RATE**

● FINE DINING

Premium, reservation-led & destination restaurants.

ONLY

1.8 KWD a day

550 KWD / year

2 months free

or 55 KWD / month **FOUNDING RATE**

One table you'd have lost pays for the whole month. The Founding Partner Rate is locked for as long as you stay – regular rates apply to restaurants who join later, and founding spots are limited. No commission and no per-cover fees, ever. Prices in Kuwaiti Dinar; annual is billed once a year.

Live in three easy steps.

01

Apply

Tell us about your restaurant. It takes about two minutes – no commitment, no card.

02

We set you up

Our team builds your Cue page with you – photos, menu highlights, hours, and status. You review it and approve it.

03

Go live

Flip your status to Available and start welcoming guests who already know you're ready for them.

Your free month starts the day you go live.

We do the heavy lifting – you approve the result.

● FOUNDING PARTNER PROGRAM

Let's get you on Cue.
